Type D1SL-1 and D1SL-2 Class I, Division 1 Signal Lights for use with Chromalox HL Connection Kits

GENERAL

The D1SL-1 (120V) and D1SL-2 (208-277V) kits are used in conjunction with the HL-PC kit to provide an end of line or power connection signal light for use in Class I, Division 1 hazardous areas. The following is supplemental instructions upon assembly completion of the HL-PC connection kit.

⚠️ WARNING

Hazard of Electric Shock. Disconnect all power before starting. All installations must be effectively grounded in accordance with the National Electrical Code to eliminate shock hazard.

⚠️ WARNING

Turn off power before removing junction box cover at all times.

⚠️ WARNING

Users should install adequate controls and safety devices with their electric heating equipment. Where the consequences of failure may be severe, back-up controls are essential. Although the safety of the installation is responsibility of the user, Chromalox will be glad to assist in making equipment recommendations.
**INSTALLATION**

**Power connection with signal light instructions**

1. Remove conduit plug and cover. Replace conduit plug with the hazardous area signal light. Connect with wire nuts as shown below.
